

GUIDE TO CONTRIBUTING MATERIALS FOR XREASYMEDIA.ORG

You cannot load materials on to the site yourself, you will have to send them to the XReasymedia team via an attachment to an e-mail (XReasymedia@gmail.com), a service like Wetransfer or a link to a shared drive.

WHAT WE WANT

- Designs for backgrounds for any type of the different types of template on the site (without writing)
- Completed campaign posters.
- Files that are reasonable high definition. They need to be at least 250K, preferably closer to 1 meg (so they can be used for A3 posters) PNGs or Jpegs are fine. However we would encourage you to send them as **layered** TIFF, publisher or Photoshop files, which allows us more flexibility in what we can do.
- Whatever you send must be copyright free and provided on the understanding it can be shared on the site.
- Please send us links to XR media related sites

WHAT WE DON'T WANT

- Anything that has details on it that will go out of date (notices of actions with dates) unless you have them in a layered format so we can remove the text (see above)
- Low definition files such as those downloaded from Facebook
- Anything with obscene imagery or language, although hard hitting is encouraged
- We don't want to make money. The site is run entirely on a voluntary basis and all set up cost have been funded through individual donations. We will never charge people to access the resources.
